

## Coal Combustion Residuals (CCR) Annual Fugitive Dust Control Report

**PLANT NAME:** Gulf Clean Energy Center

**UNIT:** Landfill 2

**OWNER/OPERATOR OF FACILITY:** Florida Power & Light Company

**REPORTING TIMEFRAME:** October 19, 2023 to October 19, 2024

**PURPOSE:** The purpose of this report is to demonstrate compliance with the requirements for the annual CCR fugitive dust control report set forth in 40 CFR § 257.80 (c). This report describes the actions taken by Gulf Clean Energy Center to control CCR fugitive dust, a record of all citizen complaints and if any, a summary of corrective measures taken.

### **DESCRIBE THE ACTIONS TAKEN TO CONTROL FUGITIVE DUST.**

The only activity during the timeframe that had the potential for causing CCR fugitive dust is on-site landfilling. For on-site landfilling, water was added to the CCR prior to placement in the landfill cell, as needed. A water suppression truck was used to wet the roads in the immediate vicinity of the on-site CCR landfills. Fugitive emissions at Gulf Clean Energy Center are also regulated under the facility's Title V Air Permit.
