During our storm patrol, we observed that your electrical wiring system has been damaged.

To avoid any unnecessary delay in having your electric service restored, please have a licensed electrical contractor or electrician correct the condition.

Please call **1-800-4-OUTAGE** to let us know when your repairs have been completed. You will need to provide the name and license # of the licensed contractor/electrician who made the repairs.

To find out if a certified contractor or electrician is licensed in Florida, verify information at:
