

# How to recognize FPL workers

**FPL employees may be working in your area. It's important you know how to identify them.**

FPL employees carry a **photo identification badge.**

The cars and trucks of non-FPL employees who are helping with restoration efforts are **typically marked as FPL-approved contractors or emergency workers.**

Restoration workers may need to work on your property in the aftermath of a storm, but they **will not need to enter your home or business.**
